

Youssef Gamal Saad Mohamed

LARAVEL BACKEND DEVELOPER

Egypt, Cairo | 01091759746 | yg9552753@gmail.com

Objective

- Results-oriented computer science student with a passion for Laravel development, seeking to leverage hands-on experience and technical expertise in backend development to contribute effectively to a dynamic team. Eager to apply knowledge gained through academic coursework and real-world projects to drive innovation and excellence in web application development.

Personal Info

- Name: Youssef Gamal Saad Mohamed
- Address: Egypt, Benha
- Birthdate: 15 July 2002
- GitHub: <https://github.com/Youssef-Gamal-1>
- LinkedIn: <https://www.linkedin.com/in/youssef-gamal-582300262/>

Education

- Faculty of computers and Artificial Intelligence Benha University
- Major: Information Systems
- Duration: 4 years
- Current year: 4th year (second semester)

Students Activities

- Summer training program
 - **Duration:** Second and Third Year Summer of University Studies
 - **Description:** Participated in an intensive summer training program focused on improving skills in web development technologies, including HTML, CSS, and PHP. The program provided hands-on experience through practical exercises and project-based learning, aimed at enhancing proficiency in building dynamic web applications. Worked collaboratively with peers to develop a comprehensive project utilizing the learned languages, fostering teamwork and problem-solving abilities. This experience significantly contributed to strengthening foundational knowledge in web development.

Projects

- Job board web application

-- **Description:** Developed a job board web application using Laravel 10, Blade templates, and Tailwind CSS. The application allows users to post job listings, search for jobs based on various criteria, and apply for positions. Implemented features such as user authentication, caching, and job filtering.

-- **Repo:** <https://github.com/Youssef-Gamal-1/Jobboard>

- Event management Restful API

-- **Description:** Created a RESTful API for event management using Laravel 10. The API enables users to perform CRUD operations (Create, Read, Update, Delete) on event data. Implemented authentication and authorization mechanisms to ensure secure access to the API endpoints.

-- **Repo:** <https://github.com/Youssef-Gamal-1/Laravel-10-Event-Management>

- Livewire-Poll

-- **Description:** A real-time polling application using Laravel 10 and Livewire. Utilized Livewire for dynamic, reactive components without writing JavaScript, allowing seamless interaction between the frontend and backend. Implemented features such as creating polls, voting, and displaying real-time results to users.

-- **Repo:** <https://github.com/Youssef-Gamal-1/livewire-poll>

- Ecommerce web application

-- **Description:** Ecommerce app using HTML5, CSS3, PHP (native), leveraging dynamic components for seamless user interaction. Implemented features such as product browsing, cart management, and admin panel. Integrated authentication for user registration and login.

-- **Repo:** <https://github.com/Youssef-Gamal-1/JoeStore>

- Calculator App

-- **Description:** Developed a fully functional calculator application using JavaScript, HTML5, and CSS3. Implemented mathematical operations providing a user-friendly interface for calculations.

-- **Repo:** <https://github.com/Youssef-Gamal-1/Js-Calculator>

- Memory Game

-- **Description:** An interactive Memory Game using JavaScript, HTML5, and CSS3. Implemented card flipping and employed responsive design techniques.

-- **Repo:** <https://github.com/Youssef-Gamal-1/MemoryGame>

Technical skills

- Career Skills:

--Web Development Languages:

--- HTML5 --- CSS3
--- JavaScript --- PHP

-- Frameworks & Libraries:

--- Laravel
--- Tailwind CSS

-- Database Management:

--- MySQL DBMS
--- Mongo DB (basic knowledge)

-- Version Control & Collaboration:

--- Git & GitHub

-- Operating Systems & Tools:

--- Linux terminal
--- SSH

- Language Skills:

-- Arabic (native)
-- English as a second language (B2)

- Personal Skills:

-- Teamwork oriented.
-- Self-motivated
-- Have the total ability and desire to learn and upgrade.
